Faculty & Class Descriptions

Inlet's Class Offerings are pre-professional classes for ages 3-Adult. They are taught by the company members of **Inlet Dance Theatre**.

-Modern Dance classes instruct students in Hawkins-based modern dance release technique. Classes begin seated on the floor, progressing to exercises standing in the center and then to movement combinations across the floor.

-Ballet classes instruct students in the fundamentals of line, turn-out, extension, footwork and ballet vocabulary. Classes begin at the barre and progress to center and across the floor combinations.

- The Art of Composition, Improvisation & Nontraditional Partnering

This class includes Inlet Dance Theatre's unique performance improvisation and nontraditional partnering style with instruction in dance composition. Not to be missed!

-Children's Training Program This pre-professional program is designed to give children well-rounded training at any age. Each class combines Modern Dance and Ballet technique with creative problem solving instruction. During creative problem solving, children will be guided through imaginative play and exercises that stretch their brain as well as their body.

All class curricula are linked to the **National Standards for Dance Education**.
